Welcome Little Ones Preschool Learning Center Philosophy, Purpose, Goals and Mission Statement.

Our Learning Center Philosophy

We believe that the parent is the child's first teacher and the home is the first classroom. Because of this belief we endeavor to empower parents and to encourage children in everything we do.

Our Preschool Philosophy

We believe young children learn best through actively exploring their enlarging world and by engaging in a variety of playful interaction with adults, other children and materials.

At *Welcome Little Ones Preschool* we are committed to establishing a safe, nurturing learning environment that will enhance and enrich all areas of the children's lives who are entrusted to our care.

Our curriculum is built upon a framework of growing and learning through play. As children interact with adults, other children and materials they are given many opportunities to explore, create and make discoveries. They will gain skills in solving problems, starting and completing a task, social interactions, as well as learning concepts through first hand experiences.

Within our program, each teacher is committed to planning and preparing the environment for the children to become actively involved in the learning process. From a variety of learning centers, children are encouraged and assisted in taking the initiative in selecting their own activities based on their developmental needs and interests. These centers have been prepared with the understanding that children's natural curiosity and desire to make sense of their world will motivate them to become involved in learning activities. As a result, children are challenged and guided to become physically and mentally active.

The staff at *Welcome Little Ones Preschool* serve as positive role models and provide care that is supportive, nurturing, warm and responsive to individual needs. Each child is viewed as a unique person with an individual pattern of development. Different levels of ability, development and learning styles are expected, accepted and used to design appropriate activities.

We respect parents as the primary and most important provider of care and nurturing and we believe parents and teachers are partners in the children's care and education. Our aim is that together we can provide an enriching environment that supports and encourages each child to learn to face new challenges and achieve new successes thereby assisting them in developing a healthy self-concept and positive feelings towards learning in all areas of their lives.

Our Purpose Statement

The PURPOSE of the ***Welcome Little Ones Preschool*** is to stimulate the social, physical, intellectual, creative, emotional and spiritual growth of preschool children ages 2, 3, and 4 years. This will be accomplished through the curriculum which has been planned with the following GOALS in mind:

1. To help the child recognize him/herself as a valuable individual through positive encouragement and praise.
2. To encourage socialization by cooperating, sharing, and being sensitive to others.
3. To give opportunities for language and speech development, by encouraging verbalization in structured and unstructured activities.
4. To encourage the child to express him/herself in creative ways through the introduction of various materials and equipment.
5. To promote the child's natural curiosity, problem solving and joy of discovery through play.
6. To develop small and large muscle coordination through manipulative table toy play and indoor/outdoor exercise activities.
7. To develop an enjoyment, appreciation and interest in music and books both at school and at home.
8. To increase the child's awareness of the world in which he lives through learning centers.
9. To lay the groundwork for future academic learning by teaching the basic concepts of letters, numbers, colors, shapes and spatial relationships.
10. To provide a Christian atmosphere through the sharing of Bible verses, songs, stories and a table prayer.

The inspiration for our name "*Welcome Little Ones*" comes from the words of Jesus, when he said ...

"Whoever welcomes one of these little children in my name welcomes me; and whoever welcomes me does not welcome me but the one who sent me." Mark 9:37

Our Mission Statement

At *Welcome Little Ones Learning Center* we recognize the significance of children - to God, to the family unit and to the world of tomorrow. With this in mind our programs have been created to help meet the need for positive input, nurturing guidance and strong role models in the lives of these future citizens and leaders. *Welcome Little Ones* believes this investment in the generation of tomorrow will bring strength to families today and hope for the future.

While our Parent Volunteer Program is not mandatory, it will provide you the opportunity to work alongside us and observe your child interacting with his/her peers.

To facilitate your involvement in our class two things will be done:

Discipline Policy

The Discipline Policy of *Welcome Little Ones Preschool* is based around the belief that each child is a unique and special individual and deserves to be treated as such. In the preschool setting he/she will become aware of his/her own worth both as an individual and as a member of his/her peer group through positive affirmation and encouragement, while learning to respect the rights of others and to conform to simple rules and guidelines. We will attempt at all times to maintain an atmosphere of freedom, friendliness, and creativity with adults as role models and guides in the learning process. This will be carried out in the following way:

1. The child's behavior will be monitored according to limits set by the staff. This will provide the child with the security of knowing that his strong emotions will not lead him to do things that he will later regret. He knows an adult will take the responsibility of stopping unacceptable behavior until he is able to do so for himself.
2. The child will be taught about safety, care of property, good health habits, and consideration for others and an expectation of behavior will be explained as well as the limits established.
3. The child will have the rules explained to him in a cheerful, sympathetic manner to make them understandable and acceptable to the child. We will be consistent, firm and fair.
4. The child will be allowed to make as many decisions as possible within the necessary limits.
5. The child will see that the rules are enforced in a positive, impersonal way
6. The child's reasons for behaving in a disruptive manner (such as hitting, kicking, biting, throwing things, defying, or running away) will try to be understood. His behavior may be caused by any of the following:

fear	jealousy	loneliness
fatigue	confusion	hyperactivity
anger	need for toileting	overstimulation
curiosity	boredom	sleepiness
insecurity	shyness	embarrassment
hunger	illness	others _____

He may also be trying out negative behavior because the need to fight controls is normal at certain stages of development, or want, the security of knowing the rules will be enforced.

7. The uncooperative child will be redirected to another activity with the hopes of redirecting the entire activity into a more wholesome direction.
8. If one child requires too much adult attention, he should be temporarily removed from the group and allowed a "time out" with the purpose of helping him to consider his behavior in light of the rules and have the opportunity to make a more appropriate choice of action.
9. If a child is continually disruptive and uncooperative parents will be notified and a parent-teacher interview arranged. Should this fail to relieve the situation the child may be asked to withdraw from the program.

In this way, we feel we can maintain a safe and secure atmosphere for your child in this preschool environment. If you have any questions or concerns, please feel free to call us or make an appointment to come and see us. Please respect your child's dignity and the teacher's schedule, by not expecting to discuss this in his presence as you come and go from the preschool. We look forward to working with you and thank you for the opportunity to contribute to your child's early learning.
